GOOD FOR LIFE

Royal Jelly

1000 mg - 60 softgels #102560

Description: A constant supplement of **Royal Jelly** to our diet is said to provide many benefits. Cell rejuvenation and growth have been attributed to **Royal Jelly**, possibly by preventing premature aging. When taken regularly, **Royal Jelly** gradually builds up stamina. This “miracle food” has been said to also intensify and improve sexual capabilities.

Contents / Ingredients

For many years, **Royal Jelly** has been considered the ultimate gift from the hive. **Royal Jelly** is a milky white glandular secretion made by worker bees and fed to the queen bee. In the beginning all bee larvae are fed **Royal Jelly** and on the fourth day, only the larva selected as queen continues to receive the royal diet. She will eat this food throughout her life and will grow to a size nearly twice that of the worker and may lay from 2,000 to 2,400 eggs per day. In addition, she will live four to five years as compared to the 40-50 day life span of the honey bee.

For humans, the nutrients in **Royal Jelly** supply

Traditional Therapeutic Action

Supplement Facts

Serving Size 1 Softgel	Amount Per Serving	% Daily Value
Calories	5	
Royal Jelly (minimum 6% 10-HDA)		
(a 3.3:1 freeze-dried concentrate equivalent to 1000 mg fresh Royal Jelly)	303 mg	(*)

Other ingredients: Rice bran oil, gelatin, purified water, bees wax, glycerine, silica.

This Royal Jelly has been freeze-dried to maintain maximum stability and is among the finest products available. 10-HDA (hydroxy-d-decanoic acid) is one of the active, measurable components of Royal Jelly.

Contains no sugar, salt, starch, yeast, wheat, corn, milk, soy, or preservatives.

energy, mental alertness, and a feeling of well-being. This healing response has been explained by the presence of pantothenic acid (Vitamin B). **Royal Jelly** is one of the world’s richest natural sources of pantothenic acid, a vitamin thought to combat stress, fatigue, and insomnia and to be necessary for healthy skin and hair and proper digestion.

Royal Jelly contains 26 amino acids, of which six are essential to maintaining our well-being and cannot be produced by the human body. It also contains the entire B group of vitamins -as well as vitamins A, C, D and E and a broad spectrum of minerals- necessary for normal body functions and beneficial during antenatal and postnatal care and convalescence.

Royal Jelly has been found invaluable in treating symptoms associated with stress and chronic depressions. In addition, **Royal Jelly** is rich with 10-hydroxy-2-decanoic acid, an enzyme with strong anti-bacterial properties which inhibit bacterial growth and combat viral infections.

SUGGESTED DOSAGE: As a dietary supplement, take 1 to 2 softgels daily.

CAUTION: Royal Jelly may cause an allergenic reaction in some people.
